SUMMARY

Carbon Market Exchange Ltd. (CMX) is a global leader in originating and trading nature and technology-based carbon offsets.

- Project pipeline expected to exceed one billion offsets.
- Biodiversity protection in all blue carbon, tropical forest and agroforestry projects.
- U.S.-based Delaware Corporation with expert team and offices spanning the globe.
- Uniquely positioned to leverage assets and meet rapidly growing demand.

OUR WORK

CARBON PROJECT ORIENTATION

We prioritize high-quality sites and work closely with government and local leaders.

GLOBAL TRADING

We facilitate the sale of valuable nature-based carbon offsets and conserve resources through market-driven initiatives.

LOCAL CONSERVATION

We obtain Free, Prior and Informed Consent (FPIC) from indigenous groups and ensure local benefits.

BLOCKCHAIN TECHNOLOGY & DISTRIBUTION

Blockchain provides security, transparency, and helps increase distribution and market access.

CREATION OF CARBON OFFSET

UNDERWRITING AND VERIFICATION STANDARDS

- Rigorous standards and third-party verification.
- Transparent methodologies that trace offsets back to original source.
- Due diligence to achieve long-term greenhouse gas reductions.
- Meet criteria of the Integrity Council for the Voluntary Carbon Market (ICVCM), IETA, CBAM, CORSIA and other international guidelines.

BLOCKCHAIN TECHNOLOGY

**Blockchain provides security,
transparency and risk mitigation.**

- Unique distribution networks to expand buyer access.
- Verified transactions are efficient, ethical and meet regulatory demand.
- CMX is the first Sharia Compliant digital carbon asset in the world.

TECHNOLOGY-BASED PROJECTS

- The CMX portfolio includes Direct Air Capture (DAC) and Carbon Capture, Storage, and Utilization (CCUS) projects.
- DAC involves the direct removal of carbon from the atmosphere, and CCUS captures emissions at the source of industrial operations.
- Projects also include the plugging of abandoned oil and gas wells around the world.
- Bloomberg reports 18% CARG by 2035

INDONESIA

SURINAME

**PROJECT
HIGHLIGHTS**

BELIZE

TANZANIA

An aerial photograph showing a vast landscape. In the foreground and middle ground, there are large, rectangular agricultural fields, likely for corn, with distinct rows of crops. To the left, a dense, dark green forest borders the fields. The background shows more fields and distant hills under a cloudy sky. A green rectangular box is positioned in the upper right corner, containing the word 'BELIZE' in white capital letters.

BELIZE

Maya Forest Corridor project connects two of the largest areas of unbroken protected habitat in Mesoamerica.

An aerial photograph of a vast, dense tropical forest. A river or stream winds through the lower portion of the image, surrounded by thick green foliage. The forest canopy is a mix of various shades of green, indicating different tree species and possibly some seasonal changes. The overall scene is one of a healthy, undisturbed natural environment.

SURINAME

Nearly 400,000 acres of timber concessions will be protected in a 30-year conservation area.

TANZANIA

Multiple projects include over 2.6 million acres of agroforestry, coastal ecosystems and coral reefs in the Indian Ocean.

INDONESIA

Projects in Sumatra, Sulawesi and Borneo will protect over 1 million acres of tropical and mangrove forests, wildlife habitat and coral reefs.

MARKET OPPORTUNITY

- United Nations mandates for greenhouse gas reductions.
- European Union Carbon Border Adjustment Mechanism (CBAM).
- Global demand for carbon offsets outstrips supply.
- Severe economic impacts of climate change.

**Carbon Markets are valued
at **\$1Trillion** by 2050.**

CMX SOLUTIONS

CMX projects represent a growing percentage of the worldwide market.

Our project portfolio represents:

- Fair value and market value to all stakeholders.
- Regulatory compliance in meeting international climate targets.
- Local engagement and input on all projects.
- Measurable reduction in global temperature.
- Sequestration of billions of tons of carbon over 30 years.

MANAGEMENT TEAM

- Decades of experience in finance, law, economics, international development and conservation.
- Representation on the new, independent governing body for the Voluntary Carbon Market.
- Leadership featured in news and interviews on the growing carbon market.
